

# Precision in Every Connection.

---

Engineered Fluid Path Solutions for Biopharma, Medical/Medtech, and Critical Industrial Applications

100% American  
Made & Assembled

brevet > inc.

# Beyond the Standard Component

At Brevet, we don't just supply parts; we engineer critical links in your fluid path. From rapid prototyping to high-volume production, we partner with you to solve complex flow challenges with surgical precision.

## Our Core Capabilities:

**Custom Engineering:** Collaborative design to meet your exact form, fluid function requirements.

**Material Excellence:** Specialized expertise in medical-grade polymers (PC, PVC, PP, PE) materials you can trust.

**Single-Use Technology (SUT):** Our cutting-edge SUT solutions are designed to streamline your workflows and reduce cross-contamination risks.

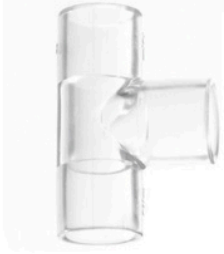

**Quality Assurance:** Rigorous testing and 100% visual inspection to ensure zero-defect reliability.

# Our Core Portfolio

## Connectors & Fittings

**MATERIAL** - PVC

T-Connectors

Y-Connectors

Reducers

Parallel Y

Reducer Bushings

**MATERIAL** - POLYCARBONATE

60° Y-Connectors

45° Y-Connectors

Straight Connectors

Perfusion Adapters

Reducers

## Custom Solutions

Our expert team collaborates directly with OEMs to develop tailored solutions using medical-grade materials, tight-tolerance modling, and application-specific geometries — all backed by U.S.-based manufacturing and full documentation.

## Markets We Serve

- ✓ Biopharma
- ✓ Medical Device
- ✓ Pharmaceutical
- ✓ Food & Beverage
- ✓ Dental
- ✓ Cosmetics
- ✓ Veterinary
- ✓ Industrial

# Your Partner from Prototype to Production

---

Ready to optimize your fluid handling system? Our engineering team is ready to help you move from concept to reality.
